## Document Purpose

The purpose of this document is to provide the initial ideas and recommendations that will be used by content and development teams to fully develop the feature set and Functional Specification for the Microsoft Flight website and community. This analysis includes website development phases, project requirements, user analysis, proposed functionality, concerns, content and feature ideas, design considerations, and overall website requirements. This will be an ongoing living document the teams will use to develop, modify and deploy the different phases of the Microsoft Flight Website.

## Team Structure and Roles

The team listed on the first page of this document will comprise the v-team for all phases of the website project. Specifically, the website management and development team will work with the existing Flight development and marketing team members in the following functional areas:

Content & Info	Design	LIVE	Mktplace	XLSP	Forum	Activities	Feedback	Mobile	Facebook	Support	Server
Scott John D CMgr Curt	Curt Kevin CSG	Ray Laurentiu	Ray Husain Gary	Laurentiu Lalit Mike C Paul	Scott Paul Curt Ray	Paul Brandon Curt	Husain Mike C Scott Paul	Mike C Nicolas	Mike C Scott	Mike C Scott Mark V Justin H	Mark P Scott

## Approvers

The following key stakeholders have been identified as primary reviewers and approvers for all phases of development:

- Scott Andersen
- John Dongelmans
- Pat Cook
- Curt Liddle

## Additional Stakeholders, Approvers and Groups

Add ...

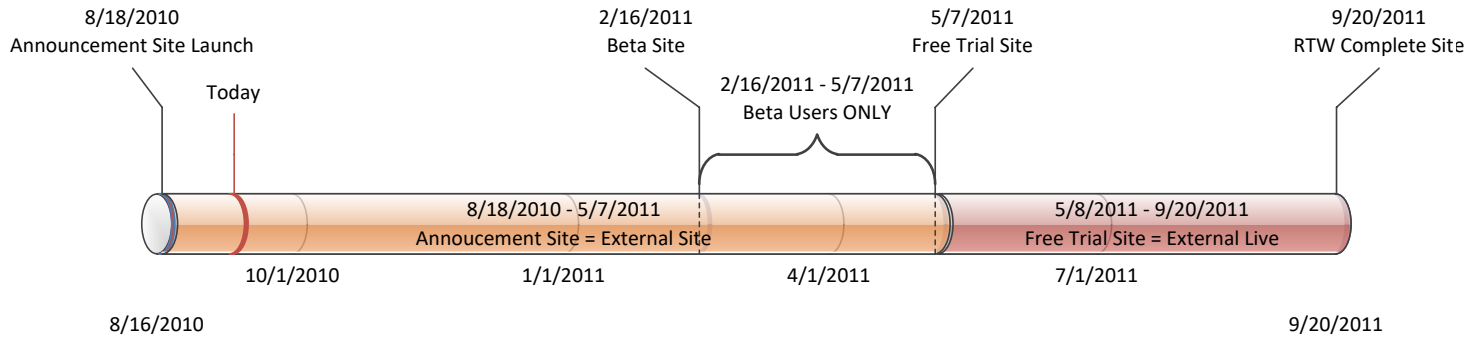

## Website Milestone Phases

The website will be rolled out in the following phases to coincide with messaging and development milestones:

1. **Announcement Site (8/16/2010 – 5/6/2011)**
2. **Beta Site: participants only (2/15/2011 – 5/6/2011)**
3. **Free Trial Site (5/6/2011 – 9/20/2011)**
4. **RTW Complete Site (9/20/2011 – ongoing)**

## Overall Key Milestone Timeline

The following key milestones will be used for all website phases:

## Phase 1: Announcement Site

The site launched on 8/16 with the Microsoft Flight announcement at Games.com.

### Goals

Following are goals for the initial site:

- Support the product announcement at Games.com.
- Begin to develop brand and marketing awareness.
- Provide external facing product news, updates and messaging as required.
- Publish monthly webisodic content to create an ongoing sense of intrigue and product “buzz” for interested gamers and former Flight Sim audiences anticipating the Flight product release.

### Metrics

TBD

- Total visitors?
- Embedded players?
- Time on videos?

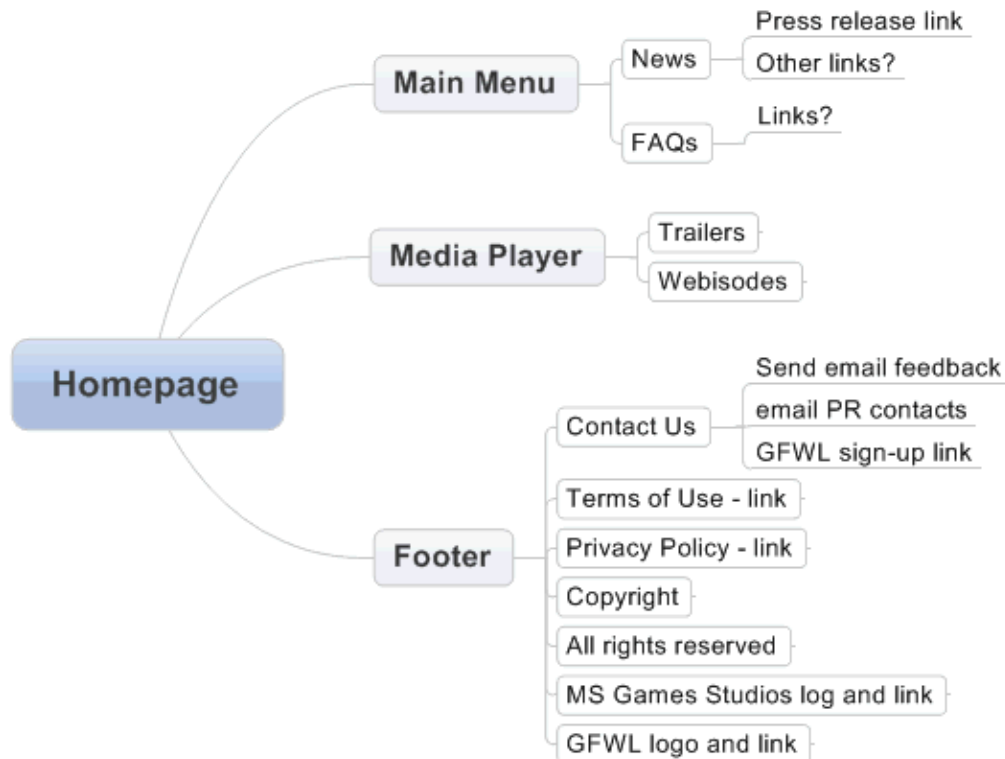

### Users

The announcement site is geared toward all identified product audiences: PC User (casual gamer) through Gonzo. Main audience of this site version (and versions going forward) is the Casual Gamer (as opposed to the Gonzo user).

### Features and Content

The Announcement site is a “one-page” site offering limited content that can be played in the media player or read on a modal page dialog. The content for this iteration of the site is developed and

displayed as English only. The following sitemap provides a quick view of current content on the site and expected growth areas.

## Phase 1 Site Functionality

Note: Initial site was built in Flash for quick development and release. Functionality below refers to the ongoing technology and features we expect to use as of Site Relaunch.

### Back-end Functionality

1. Add

### Front-end Functionality

1. Browser Support:
  - a. Internet Explorer 7-8
  - b. FireFox 3+
  - c. Chrome
  - d. Safari
2. Site Navigation:
  - a. HTML site navigation
3. Menu-Bar:
  - a. News

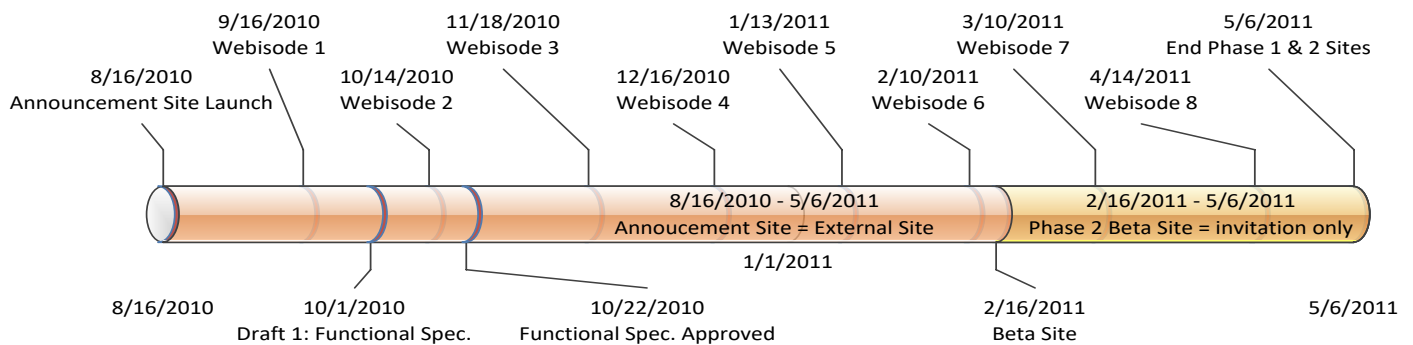

- b. FAQs
- 4. Silverlight Media Player:
  - a. Autodetection
    - i. If user has Silverlight installed, site will load normally
    - ii. If user does NOT have Silverlight, a Silverlight Installer will be offered
    - iii. Media is set to manually play (as opposed to autoplay on entry)
  - b. Controls
    - i. Play / Pause
    - ii. Playbar with slider for fast forward and rewind
    - iii. Time: elapsed time + total time display
    - iv. Volume: mute + volume slider bar
    - v. Full-screen mode
    - vi. Detachable player
  - c. Sharing
    - i. Link and code to support player embed on other sites
    - ii. Send email to a friend dialog + submit
    - iii. Links to: Blog on Live Spaces; Facebook; Twitter; Del.icio.us
    - iv. Video Information: Title; Number of views; Total time; Star rating (Live ID login required to submit star ratings and video reviews)
  - d. Content
    - i. Trailers: Marketing trailers and teasers for the product
    - ii. Webisodes: Ongoing monthly series to attract audiences, create product awareness and buzz
- 5. Footer:
  - a. Copyright: static
  - b. All Rights Reserved: static
  - c. Terms of Use:
    - i. link to: <http://www.microsoft.com/About/Legal/EN/US/IntellectualProperty/Copyright/default.aspx>
  - d. Privacy Policy:
    - i. link to: <http://privacy.microsoft.com/en-us/default.mspx>
  - e. Contact Information:
    - i. Send comments to Flight Team email link: [msflight@microsoft.com](mailto:msflight@microsoft.com)
    - ii. Phone and email to link to PR contacts.
    - iii. Link to GFWL: <http://www.microsoft.com/games/en-us/live/pages/livejoin.aspx>
  - f. Logo and link to Microsoft Game Studios: <http://www.microsoft.com/games/>
  - g. Logo and link to GFWL: <http://www.microsoft.com/games/en-us/live/pages/livejoin.aspx>

## Phase 1 Open Issues

Area	Feature	Description/Issue	Must Have	Nice to Have	Nope
News	Multiple Items	TBD style for displaying multiple items (from menu drop-down? Scrolling list?)	x		

<b>FAQs</b>	FAQs	Design for displaying FAQs (list? Q bold? Ital? A?)	x		
<b>User</b>	Sign-up	Sign-up or name collection functionality & approach?			
<b>Site Metrics</b>	Analytics Reporting	Video player has built in analytics (WebTrends). Need to setup site analytics. Omniture?	x		
<b>Accessibility</b>	Site Features	Accessibility: We currently have the ability to display closed captioning (although our media is cleverly open captioned) – are there additional accessibility features to consider?			
<b>Dev. Process</b>	Website	Processes for creating and approving: - Content additions (News, FAQs, announcements)? - LCA or PR approvals? - Site publishing guidelines/criteria?			
<b>Marketing</b>	Messaging Timeline	Communications and messaging timelines and rhythm? Webisodes published monthly on Thursdays?

<b>5</b>	<b>Beta Site Release</b>	<b>Feb-16-2010</b>	<b>Team</b>
<b>6</b>	<b>End Phase 1 Announcement Site</b>	<b>May-6-2010</b>	<b>Team</b>

## Phase 2: Beta Site

The site will launch approximately 2/16 with the Microsoft Flight Beta program.

### Goals

Following are goals for the Beta site:

- Support the Beta program of the development team.
- Test the functionality and features of the website and ensure website goals and metrics will adequately support intended audiences at RTW release.
- Begin testing community features and forums and collect data and communication to flush out the experience and make improvements prior to RTW.
- Test website categories and content for completeness and usage prior to RTW.

### Metrics

TBD

- Total visitors?
- Time on videos?
- Community stats usage?
- Personal game data usage?
- Category/content usage?
- Forum participation, categorization, usage?

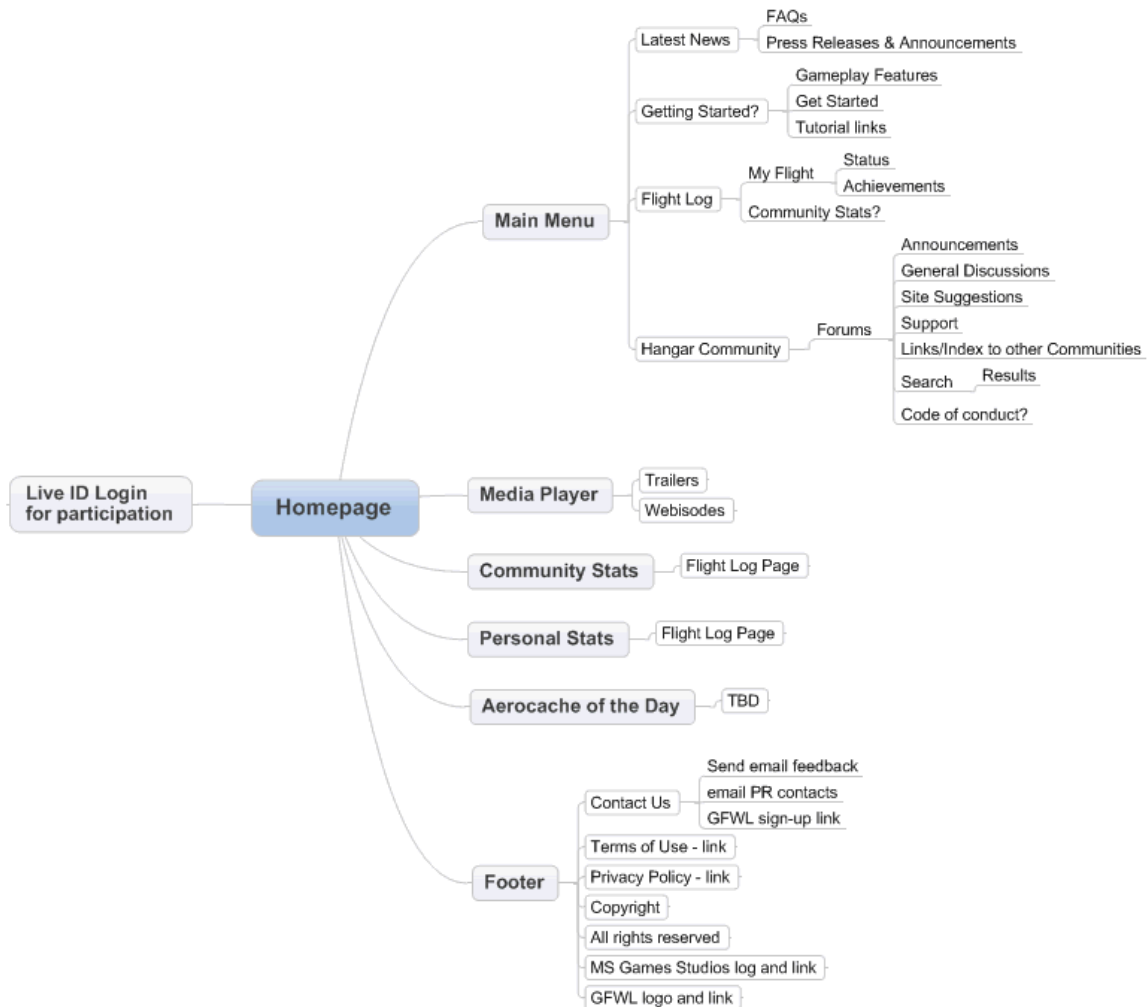

## Users

The site will mirror the Beta development audience: PC User (casual gamer) through Gonzo. Beta site users must have a unique Live ID to enter and participate in the site (selection process TBD).

## Features and Content

The purpose of the Beta site is to take advantage of this Beta product release and test core website functionality, performance and community assumptions. The Beta site will be a web-based application (ASP.NET app and SilverLight) available to a selected audience only (the Announcement site will co-exist with the Beta Site). The content for this iteration of the site is developed and displayed as English only.

The following sitemap provides a quick view of potential content and categorization on the beta site.

## Site Functionality

Note: The following NEW functionality builds upon features and functions already described in the Announcement site requirements.

### Back-end Functionality

1. Live ID integration
  - a. LiveID and Community Server
  - b. Permissions levels
    - i. Beta User: Logged in as Live User with Live ID + GamerTag
  - c. Community Server will be used for Forums
  - d. Live-ID login will be seamless so that a user needs to login just 1 time; credentials will be passed back and forth from Community server & ASP.NET webpages on the backend.
2. Forum set up
  - a. All website Beta visitors can view the forums
  - b. Only users logged in with a LIVEID can Post to the Forums.
  - c. Beta forum area available for beta user only
  - d. Needs to be skinned to match site design.
3. XLSP
  - a. We will not have access to the Live Game database. We will need to make a “copy” of the database within our server environment that we read to display particular data on the site. Current recommendation is to refresh the website database approximately every 20 minutes with the latest data from the live site.
  - b. Need to determine what data from the Game databases need to be included in an API to pass data to the website database. Current suggestions:
    - i. Aerocache (dynamic)
    - ii. Aeroclubs
    - iii. User Profile
      1. Progression in game
      2. Career level
      3. Adv. Stats TBD
    - iv. Community Data
      1. Total number of players?
      2. Total hours flown?
      3. Levels and achievements
      4. Leaderboard
      5. TBD

### Front-end Functionality

1. Main menu bar:
  - a. Change News to Latest News and include FAQs in category
  - b. Getting Started
    - i. Gameplay Features: Game overview includes highlights of the most common features of the game along with “how-to” information.
    - ii. Get Started: Game progression (you are here ...)
    - iii. Tutorial Links: Links to the game tutorials.
  - c. Flight Log

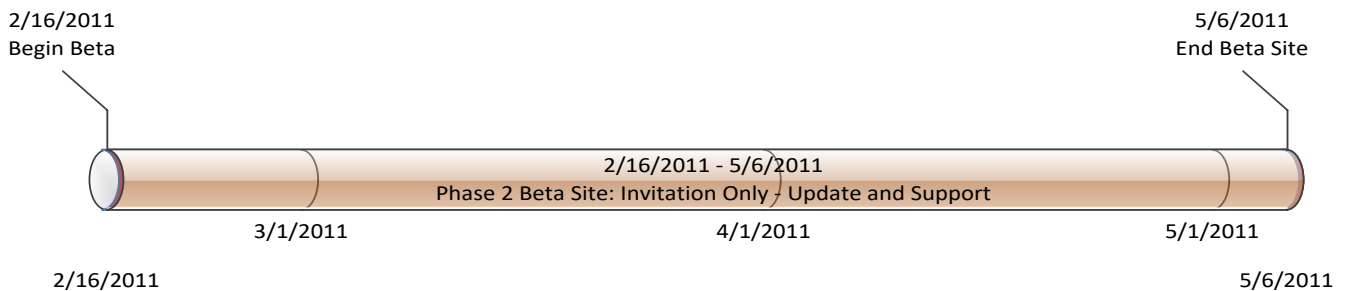

- i. My Flight: contains personal information about my flight game performance:
      - 1. Advanced stats
      - 2. Career level
      - 3. Achievements
      - 4. TBD
    - ii. Community Stats
      - 1. Number of people currently playing
      - 2. Leaderboard
      - 3. TBD
  - d. Hangar Community (Forums)
    - i. Announcements: General news and Beta announcements
    - ii. General Discussions: One big board for all gameplay and audiences (*we'll use this as a test to determine how the Forum should be split for the Free Trial version of the site – even take surveys among users*)
    - iii. Site Suggestions: Users comment on site and usage for future dev team considerations and feedback
    - iv. Support: Technical and game questions
    - v. Search: forum search
    - vi. Code of Conduct: written policies and procedures for the forums and usage
    - vii. Links/Index to other Communities: static links to related sites and communities that open in a new browser window
- 2. Silverlight Media Player: remains the same
- 3. Community Stats: added as a content category on the page. Features a small subset of community data and a “more” link where users will go to the My Flight Log Community sub-page.
  - a. Community Stats: TBD
- 4. Personal Stats: added as a content category on the page. Features a small subset of individual data and a “more” link where users will go to the My Flight Log sub-page.
  - a. Personal Stats: TBD
- 5. Aerocache of the Day: Click on this information to get the daily info (visual).
  - a. Design TBD
- 6. Footer: Remains the same

### Phase 2 Open Issues

Area	Feature	Description/Issue	Must Have	Nice to Have	Nope
Forums	Moderation	Need to determine who will moderate the forums during the Beta phase – including Support	x		
	Surveys	Should use the Beta release as a means to survey users regarding User Forum categories and interests			
	RSS Feeds	Do we want to enable for the Beta?			
	Aeroclubs	Are these added as a list in the Forums section? Need to determine which pahse to make this available			

<b>Media Player</b>	ESRB	Can we put a static ESRB logo onto the payer to negate having to show as a pre-roll before each video?			
<b>User Selection</b>	Beta Users	Need to understand process for WHO is using the game and beta site			
<b>Flight Log</b>	My Flight Log	Need to work with the Dev team to specifically figure out the data that needs to be passed from the game to the website			
	Community Stats	Need to work with the Dev team to specifically figure out the data that needs to be passed from the game to the website			
	Multi-Player	Need to determine what multiplayer data gets delivered to users (including invitations to meet and play with others)			
<b>Homepage Content</b>	Screen shots	Need to determine when and how to add user generated screenshots to the site			
<b>Marketplace</b>	Beta	No Marketplace integration planned for Beta ... do we need?			
<b>Social</b>	Features	None planned for Beta. Do we want links?			
<b>Mobile</b>	Site	None planned for beta			
<b>Process</b>	Sprints + Testing	Do we want to align the game dev/test team sprints and schedules to the website development schedule?			

### Phase 2 Milestones Timeline

### Phase 2 Milestone Schedule

No.	Milestone	End Date	Responsibility
1	Launch Beta Site	Feb-16-2011	
	Update regularly	TBD	
	Communications Rhythm	TBD	
	Analytics reports & reviews	TBD	
	Surveys (?)	TBD	

	Periodic site updates to test features and responses	TBD	
	Forum moderation	TBD	
2	End Beta	May-6-2011	
3	Beta Findings Postmortem	TBD	

## Phase 3: Free Trial Site

The site will launch approximately 5/6 with the offer to download a Free Trial version of Microsoft Flight.

### Goals

Following are goals for the Free Trial site:

- Serve as official site and entry point for all things MS Flight.
- Engage users with the game value propositions and elicit trust.
- Get users to download the Free Trial.
- Engage and interact with users to begin to form long-lasting and sustainable relationships and communities.
- Interest users in the RTW release of the game as well as add-ons and additional features and experiences.
- Get feedback from users and try incremental changes in preparation for RTW site launch.

### Metrics

TBD

- Total visitors?
- CTA click-through rates
- Free Trial download stats?
- Time on videos?
- Community stats usage?
- Personal game data usage?
- Category/content usage?
- Forum participation, categorization, usage?
- Ad click-through?

### Users

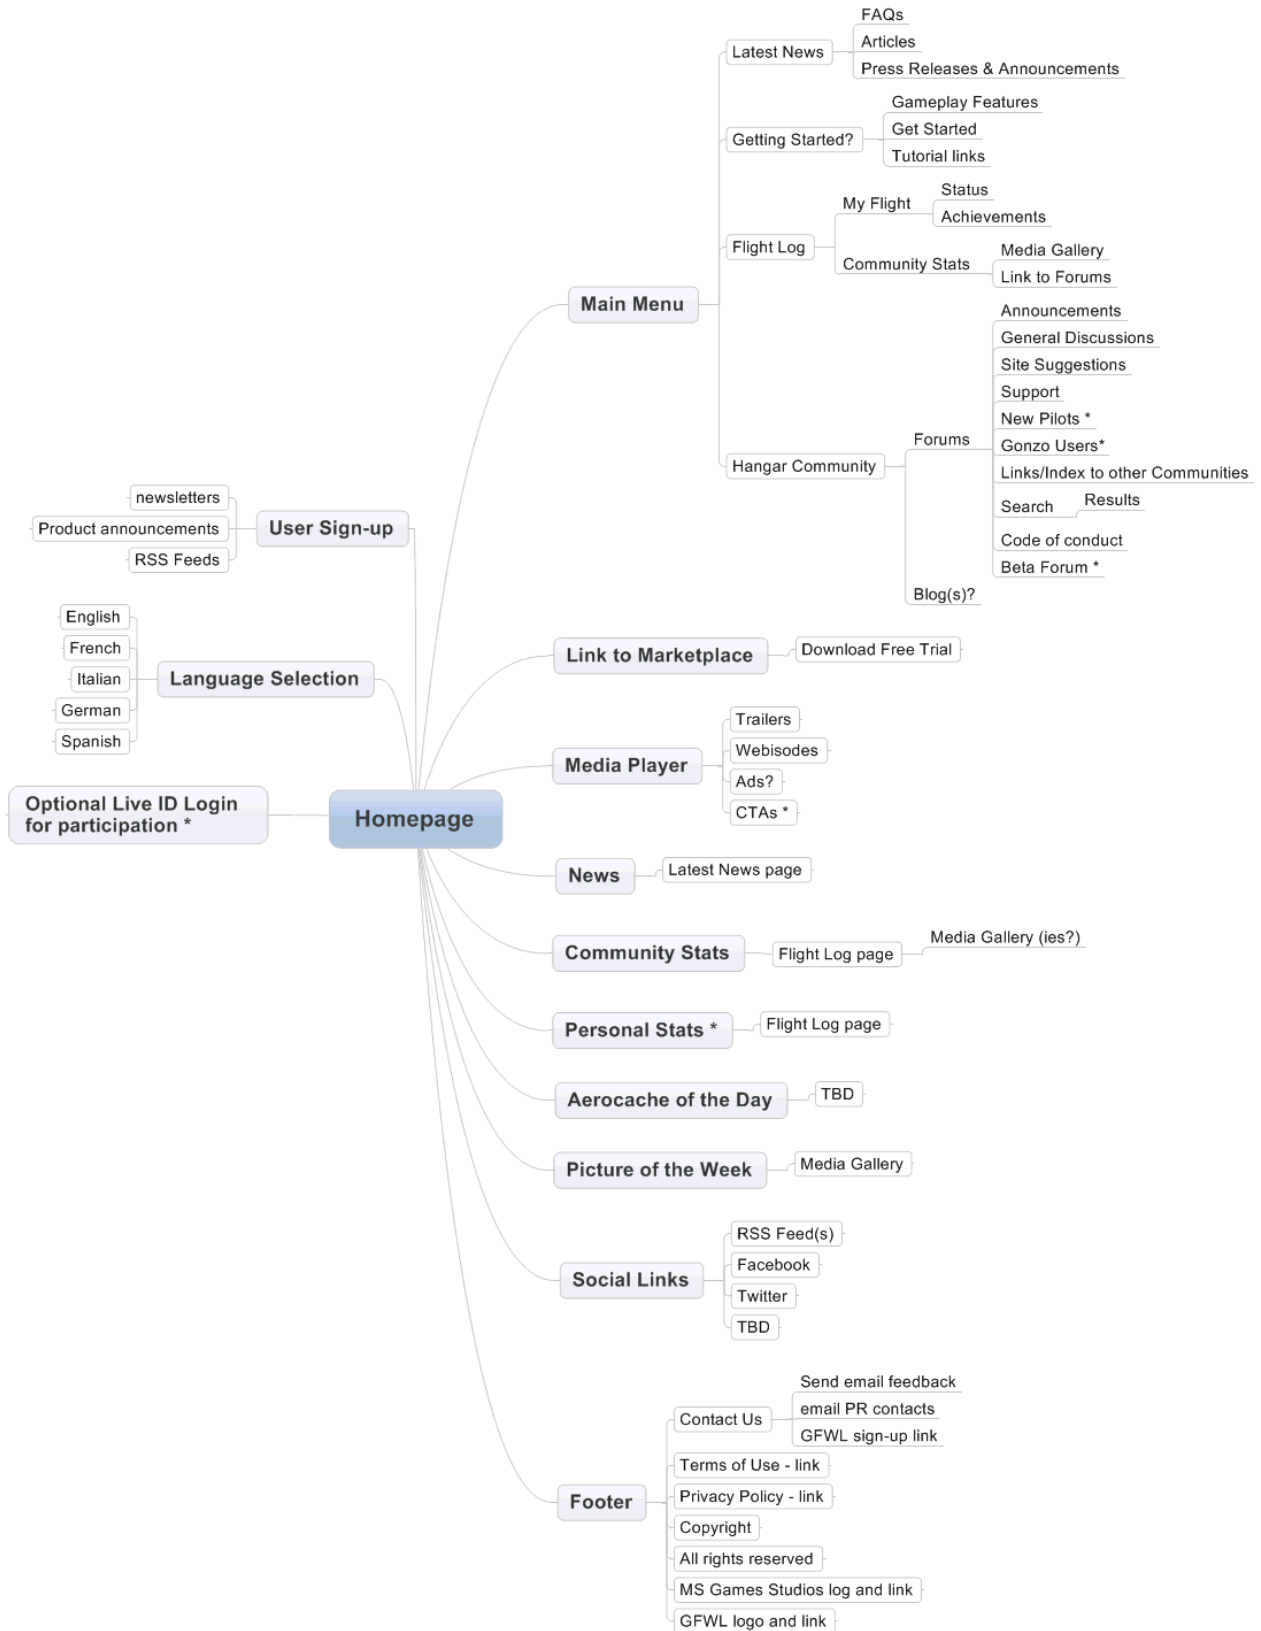

The site will primarily target the PC User (casual gamer). We want the site to be visually fun, exciting and informative (but not too “heavy” in data). Content will be factually correct and precise (to appeal to the Gonzo users) but, lightness of design and CTAs will appeal to the broadest audience possible.

### Features and Content

The site will be built upon the Beta version of the site. Beta usage data will inform the changes, additions and modifications to the site. In addition, we will be serving a much broader community in the Free Trial version of the site. This will necessitate the following changes:

- Multiple Languages: English, French, Italian, German, Spanish versions of the site.
- Broader forums to cater to unique audience segments.
- Clear Calls to Action (CTA) areas on the homepage to encourage specific behaviors and interests.

The following sitemap provides a quick view of potential content and categorization on the Free Trial site.

## Site Functionality

Note: The following NEW functionality builds upon features and functions already described in the Beta site requirements.

### Back-end Functionality

1. Live ID integration
  - a. Permissions levels
    - i. Unauthenticated User (Public) - Content available to everyone.
    - ii. Live User - Logged on with Windows Live ID (hasn't downloaded Game).
    - iii. Live User + GamerTag - Logged on with LiveID (has downloaded Game).
    - iv. Beta User - Same as #3 above with additional access to "Beta" content such as Forum dedicated to Beta users etc.
2. User Sign-up
  - a. Newsletters
  - b. Product announcements
  - c. RSS Feeds
3. Localization support (XML schema)
  - a. Folder structure and templates for localization.
  - b. Localize in the following languages:
    - i. French
    - ii. Italian
    - iii. German
    - iv. Spanish
4. Pictures / Media from Game: TBD
  - a. Determine how users can quickly take images (possibly data-based motion files) and output for use on website.
  - b. Additional XLSP changes?
  - c. Where should the files and info live (media gallery? Blog?)
  - d. Can motion files be rendered into movie files?
  - e. YouTube and other sharing sites?

### Front-end Functionality

1. Language Selection:
  - a. French
  - b. Italian
  - c. German
  - d. Spanish
2. Main menu bar:
  - a. Latest News includes Articles
  - b. Flight Log: Community Stats
    - i. Includes links to Media Gallery
  - c. Hangar Community (Forums)
    - i. Includes new User Group segments:
      1. New Pilots
      2. Gonzo Users (name TBD)
      3. Others TBD

- ii. Can include Blogs
      - 1. TBD (who/how)
- 3. Silverlight Media Player
  - a. Add Rotating CTAs based on user profile:
    - i. Everyone
    - ii. Has GFWL account and Gamer Tag but, not downloaded
    - iii. Downloaded Free Trial
  - b. Add Static content CTA area onto the player. Will include a link to Download the Free Trial.
  - c. Can include pre-roll/post-roll ad in the player media
  - d. Can include additional static ads on player
- 4. Link to Marketplace to download the game Free Trial
- 5. Sign up:
  - a. Newsletters
  - b. Product announcements
  - c. RSS feeds
- 6. Social Links:
  - a. Link to Official Flight Facebook page
    - i. Need to start Official Page
    - ii. Can start collection of links to fan pages
    - iii. Can start official "Malia" page (Twitter as well)?
  - b. Link to Official Twitter page?
  - c. RSS links
- 7. Community Stats: Can add gallery page with Media an user generated photos
- 8. Picture of the Week: can add ability of players to add pictures to Gallery.
  - a. TBD – whether this functionality is included in the Game?
- 9. Footer: Remains the same

### Phase 3 Open Issues

Area	Feature	Description/Issue	Must Have	Nice to Have	Nope
Forums	Moderation	Need to determine who will moderate the forums	x		
	Surveys	In this phase?			
	RSS Feeds	What content? Where?			
	Aeroclubs	Are these added as a list in the Forums section? Need to determine which phase to make this available			
Media Player	Rotating media in player	Suggest 3 possible states for rotating particular ads into primary media space: 1. No Live ID or Gamer Tag; 2. Yes=ID/Tag No=download; 3. Yes=download			
	Still Ads	Can add latest messaging and sales pitches on player to influence CTA responses			
Social	Facebook	Recommend creating and official page at this			

		phase			
		Malia Page : Recommend creating a Facebook page for Malia (in her voice) and testing for user responses, fans, etc.			
	Twitter	Recommend an official team acct. Also recommend a Malia account and testing.			
<b>Content Management System</b>	Which	How to best update the site?			
		How to best publish the site?			

### Phase 3 Milestones Timeline

### Phase 3 Milestone Schedule

No.	Milestone	End Date	Responsibility
1	Launch Free Trial Site	May-6-2011	
	Update regularly	TBD	
	Communications Rhythm	TBD	
	Analytics reports & reviews	TBD	
	Surveys (?)	TBD	
	Maintenance/Support/Updates	TBD	
2	End Site	Sept-20-2011	

## Phase 4: RTW Site

The site will launch approximately 9/20 with official release of Microsoft Flight.

### Goals

Following are goals for the RTW site:

- Serve as official site and entry point for all things MS Flight.
- Engage users with the game value propositions and elicit trust.
- Provide news and related information to the interested community.
- Get users to buy the product and contribute to the community.
- Engage and interact with users to begin to form long-lasting and sustainable communities.
- Interest users in add-ons and additional features and experiences.
- Provide users with information on partner products and new product information.
- Elicit feedback for future game upgrades, improvements and editions.

### Metrics

TBD

- Total visitors?
- CTA click-through rates
- Product download stats?
- Ad effectiveness?
- Time on videos?
- Community stats usage?
- Personal game data usage?
- Category/content usage?
- Forum participation, categorization, usage?
- Ad click-through?
- CTA site placement?

### Users

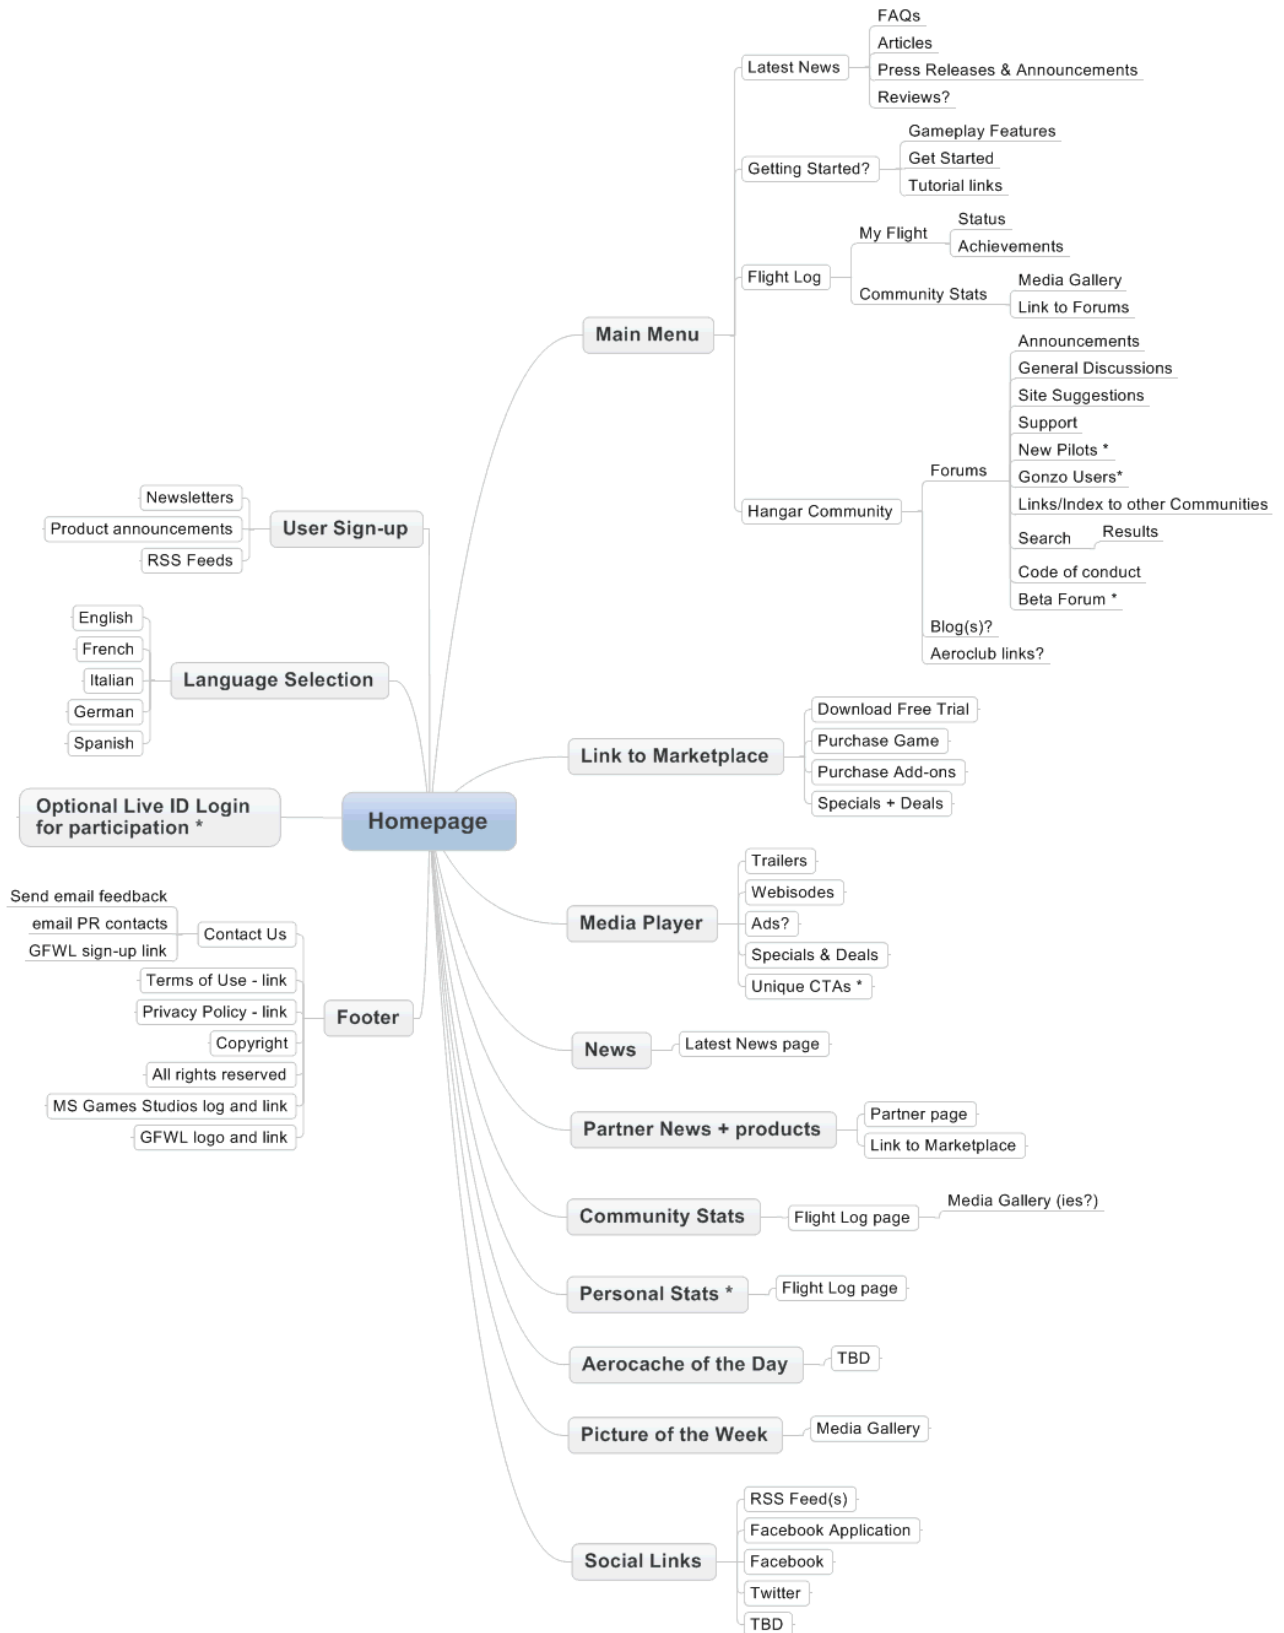

The site will primarily target the PC User (casual gamer). We want the site to be visually fun, exciting and informative (but not too “heavy” in data). Content will be factually correct and precise (to appeal to the Gonzo users) but, lightness of design and CTAs will appeal to the broadest audience possible.

### Features and Content

The site will be built upon the Free Trial version of the site. Free Trial usage data will inform the changes, additions and modifications to the site. This will necessitate the following changes:

- Full Marketplace integration.
- Partner information, ads, news

The following sitemap provides a quick view of potential content and categorization on the RTW site.

## Site Functionality

Note: The following NEW functionality builds upon features and functions already described in the Free Trial site requirements.

### Back-end Functionality

1. Marketplace Integration: TBD
2. Media from Game: TBD

### Front-end Functionality

1. Main menu bar:
  - a. Latest News includes Reviews of MS Flight
  - b. Hangar Community (Forums)
    - i. Includes new User Group segments based on Free Trail site data
    - ii. Include Blogs TBD (who/how)
    - iii. Should we add Aeroclub links to Forums?
2. Silverlight Media Player
  - a. Add Special Deal ads
3. Link to Marketplace to for integration
  - a. Buy
  - b. Free trial
  - c. Add-ons
  - d. Specials and Deals
4. Partner Page: add page for partners and add-ons:
  - a. More info about new products than provided in summaries in Marketplace
  - b. New product releases, announcements, etc.
5. Social Links:
  - a. Add Facebook application
    - i. Users click link to have Flight Stats and level (info TBD) added to their Facebook page automatically.
6. Community Stats:
  - a. TBD Media Galleries
7. Footer: Remains the same

## Phase 4 Open Issues

Area	Feature	Description/Issue	Must Have	Nice to Have	Nope
Forums	Groups	Add new based on user data to date	x		
	Aeroclubs	Should we add to forums as links? Separate forums?			
Partner Page	Content	How to best collect one database of partner news that can be used to populate: summary in Marketplace and additional information on the Flight site.			

Social	Facebook Application	What should be on the application and how should we promote? Support?
